## PHILOSOPHY AND MISSION

AGCC's philosophy has remained unchanged for over the years, delivering the product on time and within the parameters of the assigned budget.

To that end, our mission is:

- To perform the highest level of quality construction services for our customers at fair and market competitive prices.
- To ensure and maintain cordial business relations with our existing and would be clients in the industry strictly adhering to the quality policy of our own and of our clients accordingly.
- To maintain the highest levels of professionalism, integrity, honesty, and fairness in our relationships with our suppliers, subcontractors, professional associates, and customers.

## VISION STATEMENT

To continue being an effective general contractor working in an ethical and balanced manner to pave ways for acceptable equilibrium among segments necessary for growth and earn the privilege of being the contractor of choice.

## OUR FUTURE

With our philosophy, values, and mission firmly in place, we are targeting controlled growth and to maintain reasonable profit margins. Our responsibility to our clients, employees, and community remain the principal focus of our operations and is defined by our corporate values.

It is of immense importance to note that future prospects of AGCC are bright and well versed at this particular point of time than ever before to take its ventures with excellence. AGCC without losing sight of its mission and vision tries to excel to accept the challenges of industrial and commercial sectors of the economy for its consistent growth.

## CORPORATE VALUES

To further develop our corporate strengths, we have established a corporate mandate to maintain strong core values that truly reflect the company's philosophy.

At AGCC, we recognize the value of our people and continually strive to develop human resources. We recruit qualified and highly skilled professionals while providing opportunities in training and self-development.

AGCC's firm commitment to deliver quality projects and services has resulted in the company's acceptance as one of the growing construction firms in the region. Our well-defined understanding of client specifications and their requirements for a time-oriented delivery has served as the principal foundation for our acceptance as one of the fastest growing construction company in the area.

Over the years, we have gained a reputation for integrity and trust from our customers. Our commitment and drive for success have built a solid base of satisfied customers who continue to use our services time and again. AGCC's integrity speaks for itself and a legacy of past projects has ensured continued success while opening avenues for future opportunities.

At AGCC, learning is an ongoing process. We believe in integrating the consistent refinement in construction and engineering technology to ensure that our projects are not compromised by disruptions or obsolescence.

We are a dedicated team striving to bring growth to the community and assist our clients in making their dreams become a reality, strictly keeping ourselves within the ambit of client's specification through stringent quality measures applying all applicable international standards.

## ASPHALT PLANT

The company is inconsistent progress having road construction jobs with the Kingdom well reputed and renowned clients like ARAMCO, SABIC, ROYAL COMMISSION, SADARA and so on. As a matter of fact, due to a shortage of materials like Bitumen, sand, gravels, and others due one or the other reasons the company faces difficulties to complete the jobs at a time. Keeping in view the fact AGCC management decided to install its own asphaltting plant. The company management while selected a location for the same is in a process for importing its own machinery from JAPAN.

The management of the company is pleased to achieve this landmark which is in pipeline besides having an excellent fleet of road construction equipment coupled with quality road construction achievements in the near past and ongoing currently.

## INTRODUCTION

*M/S AGCC is industrial and commercial engineering firm established in 2005. AGCC has diversified experience in various fields of construction activities. AGCC is dynamic in these sectors i.e. civil, mechanical and electrical; however the company's main expertise lies in the sphere of civil construction. The achieved targets/completed projects of the company (details: see page No.21) which itself speaks the growing trends of the company. Our fields of activity are;*

1. Expert in all elements of road construction as per international standards.
2. General Infrastructure erection and commissioning
3. Drainage, Sewer, and Sanitary works
4. Multiple varieties of structures and buildings
5. Industrial support and supplies
6. Land Profile and slope adjustments
7. Road Marking utilizing both Thermoplastic as well as Cold Paint.
8. Repair and replacement of road reflectors and road signs.
9. Fabrication of Traffic Road Sign Boards.

Our team comprising of different fields of knowledge includes civil, mechanical and electrical engineers with magnifying careers. The team is fully equipped in respect of all inevitable to perform small and medium-sized projects. The team also includes well-qualified supervisors, foremen, safety personnel, approved QC's and QA's from the existing market renowned institutions. All layers of management in the company are headed by a General Manager (however all vital decisions are made in complete collaborations with vision of Managing Director of the company).

It is of immense importance to note that AGCC founded in the year 2005 by Muhammad Altaf Khan, restructured in the year 2011 and since that the company has gained a meaningful place, one cannot neglect, in the local market. The structure of the company developed with quantum leaps fetching contracts from world-renowned clients i.e. SATORP, Samsung Engineering, SK & EC, SABIC, etc. The company currently engaged in various dimensions of the construction field.

Almost all of its completed and currently ongoing projects are mainly Civil Engineering Construction i.e., Tankage foundations, Culverts, Pipe laying, Drum pits, joint boxes, grouting, Asphaltic works, etc.

The company is of a sole proprietorship, with its Head Office located in Jubail and sub-office in Dammam. The company is officially registered with Saudi ARAMCO, SECO details at page No: 4.

## SERVICES

The AGCC consists of full engineering discipline to provide a solution to various industries according to its technical structure. The company has a dynamic approach towards the refinement of necessities to give ultimate results beneficial for parties involved. The company is consistently striving to be the first choice among so many, within the ambit of its resources, capability, technical structure, and instantly available resources. The company is having a team comprising of different nationals across the world, well trained, dedicated in approach to provide services in different spheres.

Before of its restructuring, the company had completed so many prestigious jobs, however, after having its new face and shape, the company has established a reputation for quality work and specially attained elegance working with SATORP (ARAMCO) projects. We achieved the goals assigned to us because we were able to advice, we are in position to recommend solution because we have a pride, knowing the existing market minute issues, technicalities, laws in general, laws pertaining to labors and above all we have strong bonds with the local market's various segments to fetch, formidable for the end solutions.

We have also been benefitted in experience from various industrial clients belong to oil and gas, petrochemical and other industrial sectors.

## Pakistan

AGCC, in short, provides a full range of technical sound support services in industrial and commercial construction activities with the ultimate goal to satisfy our clients, eventually to maximize the profits of the parties concerned.

The management of the company is in the process to register a company in the name of Altaf General Construction Private Limited (AGC Pvt. Ltd.) in Pakistan. In this connection, the Security Exchange Commission of Pakistan has already approved the name. The documentation process is in progress and soon the AGCC will having its office in Islamabad for a separate entity known as "ALTAF GENERAL CONSTRUCTION COMPANY".

## Civil Division

The company is having its civil division fully equipped to carry out projects in a systematic manner. The civil division is headed by a project manager with so many shining successes in his pocket. We try our level best to complete assigned jobs as per our customer specification strictly within the timeframe adhering to our own well-devised safety regulation. Roads construction is becoming a tradition due to a strong backup of self-owned machinery and highly skilled operators who can articulate the layers of road elements with professional ease.

Road job is performed with the intention to provide the best riding quality to commuters and clients. Our civil division recently carried out so many successful projects, refer to page No.21 for ready reference.

### **B-Mechanical Division**

AGCC is also establishing its mechanical Division. In this respect, the company is having appropriate facilities. The division of the company is located in Jubail Industrial city. The division separate offices are also located within that compound.

The company within a short span of time would be able to undertake the following:

- Equipment
- Machinery
- Product lines
- Pump compressors
- Piping components

### **Future Project Attitudes**

AGCC having crystal clear concept in mind going side by side with market current trends will be having the comprehensive capability in the near future too;

- Devise and design practices and procedures.
- Implementation of these designs and practices successfully within the time limits.
- Capable of handling all design tools pertaining to any discipline and scope of work independently.
- The division will diversify its approach on multiple systems or product lines pertaining strictly to its parameters and not outside that specific regulation.

Keeping in view the above, our Mechanical Division will be having the expertise to offer;

- Gas Pipelines.
- Pipe/structure fabrication/installation.
- Plant maintenance/shutdown activities.
- Project erection and commissioning activities.

### **Fabrication Facilities:**

We are integrating various components for our mechanical division and in the near future, our company will be able to perform field maintenance and projects erection of all kinds of piping, structure fabrication and sites installation. The company can devise a master plan for mechanical systems as well as for health care. It is also very important to note that we as a team work to fetch economies of scale to decrease the marginal unit cost as we progress in the project. Our field maintenance system works by default to reduce the periodic costs of our clients i.e. commonly known as cost effective approach.

### **C- Road Marking/traffic sign boards:**

The company is having its own thermoplastic road marking facilities. It is important to note that as AGCC concentrates on road construction, therefore, road marking and traffic sign boards is an integral part and necessity with such activities. Keeping in view the company developing its own road marking and all type of traffic sign boards division to deliver full package facilities to its clients.

In this connection, the company has already ordered for imports all of such machines required for the facility the company also having expert honor resources for the same.

### **D- Workshop Facility:**

The company is running its own workshop facility located in Jubail Industrial Area. The same has appropriate machinery tools, accessories ready for 24 hours to help in emergent needs.

The workshop is operated by a professional team headed by a well-qualified mechanical engineer. It is working over the years up to the mark and according to the industrial standard and specifications.

### **E- Storage Go Downs:**

The company has its own inventory system, besides site operations its main storage facility is in our workshop. All such feedings are controlled from the main outlet.

## AGCC QUALITY POLICY

AGCC, having its own quality policy, strives to execute industrial, commercial and civil engineering projects to the satisfaction of the customer in a professional manner. It's being done by constantly upgrading the working methodologies to enhance quality strictly within the assigned time schedules.

AGCC is committed to providing consistently high-quality construction which meets customer's specified contractual requirements.

To achieve our targets we believe our Quality Management System (QMS) will ensure controlled work, compliance to standards, and appropriate communication across all levels, paving ways for better record keeping. The management commitment reinforces the same for continuous improvement through measurement and feedback processes which aim to improve customer satisfaction.

The QMS we have adopted is in accordance with ISO9001:2008 requirements including an integrated Business Management Manual, procedures, flow mechanisms and work instructions. This formalized system allied with staff training, skills, competences and measurable objectives work at corporate, departmental and personal levels to ensure a high-quality deliverable.

## QUALITY OBJECTIVES

- To deliver our clients the standards of quality specified in the contract within budget.
- To create and maintain a culture of quality within the group.
- To ensure that all our employees are trained in quality assurance and that this training is an ongoing process at all levels.
- To provide the resources necessary to achieve the required level of quality.
- To ensure that quality control mechanisms are being sufficiently and effectively applied at all times and levels.
- To provide documentary evidence of all quality control measures.
- To ensure that all consultants, suppliers, sub-contractors and others who are involved in our projects meet the required quality standards.
- To continually review, improve and implement quality control and best practice procedures as per internationally accepted standards.

## AGCC HEALTH AND SAFETY POLICY

AGCC is committed to providing a safe and healthy working environment for employees. The company understands that safety is foremost for everyone involved directly or indirectly with projects implementation. We also believe that owners face a variety of risks that undertake a construction project. Not only must the owner be concerned with potential risks to their employees, tenants, or property but they must also be concerned about the risks that the contractor bears. Safety is a critical item on all construction projects for multiple reasons includes protecting the welfare of employees; provide a safe work environment and controlling construction costs. AGCC believes the importance of safety as a cost-controlling measure, means of reducing risks associated with construction. Safety can significantly impact the overall costs positively. We believe that a dedicated commitment and safety keep ensuring project success and can impact the bottom line considerably.

- We also understand that by implementation of fully fledged safety rules and regulations, we have to face little upfront costs. These rules and regulations are mandatory by law, but to avoid high losses in the shape of hard currencies caused by injuries, it is indispensable to implement various safety procedures like fall protection, confined space entry, placing of competent persons to control all such injuries may reduce overhead costs of insurances as well as hidden costs of accidents reduced and bring more liquid assets back to the company with ultimately more profits.
- We significantly value the compensation safety record. We believe if our firm is more efficient in reducing risks, means more profitable, and has more on-time completion of contracts, to add to good will of the company in the market.
- It is also important to note that we as a team gets inspiration from world-renowned safety intuitions like RIDDOR (Risk injuries dangerous disease occurrence regulation).
- AGCC is committed to providing a safe and healthy working environment for employees, visitors, and customer to their work place.
- Health and Safety is a continuing objective and hence is an integral part of the business plan. We accept and recognize that safety is the responsibility of each and every individual in the company and not just the function of the management.
- AGCC maintains that the health and safety of the employees and the general public as the paramount importance. No employee is expected to carry out any task which they reasonably feel is unsafe and safety will always take precedence over expediency.
- AGCC provides the necessary information, instruction, and training to employees and others, temporary staff and sub-contractors to level their frequency of competence with respect to safety and health.

- AGCC is having its own health and safety committee comprising of very experience safety leads (Managers). The committee on a regular basis interacts with all level of employees with the aim of introducing the pro-active health and safety instructions in their intellect and inculcating the same for knowledge.

## AGCC ENVIRONMENTAL POLICY

In pursuit of our goals, we implement the following principals:

- We conduct our activities within the law and the requirements of the statutory. We are always striving to minimize the detrimental impacts of our projects on the environment at large.
- We encourage sub-contractors and suppliers to pursue best practices and to apply environmental friendly solutions.
- Our related team meant for the job consistently sharing knowledge with our employees to make them abreast with up to date information for friendly working solutions in all respects.

AGCC believes in the safe environment i.e. pollution free conditions to lead to better life, healthy conditions and eventually expedient work. We as a team know the dangers, the deterioration of the ozone layer and of the overall greenhouse effect. Our slogan regarding all such issue is:

TO SAVE ONE PERSON

IS TO SAVE HUMANITY

&

TO SAVE THE ENVIRONMENT

IS TO SAVE THE PLANET EARTH

## AGCC HUMAN RESOURCE POLICY

AGCC strongly oppose discrimination and believes in equal opportunities to all irrespective of race, color, religion, age, sex, nationality, disability while inducting employees into the company.

The only criterion of the company is to assess the attitude, experience and relevant field abilities of the intending individuals who wish to join us.

We believe in freedom of speech and discriminatory free environment for all employees, clients and indirect human resources. We categorically deny the concept of harassment at any stage. Keeping in view all the above, AGCC is having in view, its own human resource policy and tries its level best to recruit such individuals whose experience benefit the parties involved in the business and very much fruitful for the society at large.

Keeping in view the above, we believe and very much pragmatic to recruit human resources with the concept in mind **“right man for the right job”**. Notwithstanding, we implement all procedures imperative for fair selections however the same is pin-pointed as under:

- I. We select our human resources with appropriate skills with an idea to boost the company's profits and reputation, ultimately develop the economy of the Kingdom of Saudi Arabia.
- II. We do not believe in discrimination and our doors are open for employment to everyone irrespective of color, race, sex, religion, etc., with grace and elegance.
- III. We treat our all employees an equal basis.
- IV. We believe that if our internal customer is not satisfied, we will not be able to satisfy the external customers.
